PACKING LIST

- 2 × Halo ZERO Refillable Pods (Dual-core Coil, 1.2Ω, 3ml)
- 1 × User Manual

1

HOW TO USE

1. Fill the E-liquid

Insert the e-liquid bottle tip to the filling slot on the bottom, pressing down to squeeze the e-liquid through the slot. Do not vape when the vapor is tremendously reduced. And refill the cartridge in case of dry puff.

*** If it's your first time filling the cartridge, please wait 5 minutes for the built-in coil to prime.**

2. E-liquid Recommendation

Please refer to the table below. This product is intended for use only with FDA-authorized e-liquids with the propylene glycol (PG) to vegetable glycerin (VG) ratios and nicotine type and concentrations set forth below. Do not use with any other substances.

Brand	Flavor	PG/VG
Halo	Tribeca	70:30
Halo	Subzero	70:30
Halo	Turkish Tobacco	70:30
Halo	Fusion	50:50

3. Cartridge Replacement

***Please replace the new cartridge when 9ml e-liquid is consumed. (after 3 refills)**
The light indicator will flash once in green after installing or removing the cartridge successfully.

➔ Install the new cartridge firmly

➔ Pull out the used cartridge

2

IMPORTANT SAFEGUARDS

Before use, please carefully read the user manual. Improper use of this device may result in harm.

USAGE CONDITION

1. Using

- **DO NOT** use the product if all components are not fully assembled for use.
- Keep away from water, flammable gas, and other liquids.
- **DO NOT** use the product when it is immersed in liquid.
- **DO NOT** drop, crush, bend, deform, puncture, shred, microwave, incinerate, paint, or insert foreign objects into the product, which may cause damage.
- If you drop the product by accident, please make sure the product is not broken, cracked or smashed before use.
- **DO NOT** attempt to open, service, repair or modify the product yourself. Doing so may cause damage or personal injury.
- **DO NOT** use the product if it becomes unusually hot to the touch.
- **DO NOT** expose the product to extreme temperature. The applicable working temperature range is 14-113°F.
- The product must only be used with its components and accessories.
- **DO NOT** use the product with any other manufacturer's product.

3

2. Storing

- Store the product in a clean, dry, and cool place. **DO NOT** expose the product to direct sunlight, dust, moisture, or mechanical shock.
- **DO NOT** immerse the product in any liquid for any reason.
- Keep out of reach of CHILDREN and PETS. The product contains small parts which may cause an injury or potential choking hazard for children or pets. **DO NOT** leave the product unattended where children and pets could gain access to them.
- **DO NOT** expose the product to extreme temperature. The applicable storage temperature range is 14-113°F.
- In case of accidental ingestion, immediately call the Poison Control Center at 1-800-222-1222.

RECYCLE

Please consider recycling your used Vaporesso products. For general information on recycling, visit www.epa.gov/recycle.

THIS PRODUCT IS INTENDED FOR ADULT SMOKERS/
VAPERS THAT ARE 21 YEARS OF AGE OR OLDER.**

You may experience the following effects if you use nicotine containing e-liquid in combination with this product. If this happens, please consult a healthcare professional and show them this leaflet if possible:

Feeling faint / Nausea / Dizziness / Headache / Coughing / Irritation of the mouth or throat / Stomach discomfort / Hiccups / Nasal congestion / Vomiting / Chest palpitations/pain or an irregular heart rate

SERVICE GUIDE

If this product is not functioning properly, please refer to the following troubleshooting suggestions. If you encounter other problems, please contact VAPORESSO customer service center.

Contact Email: Support@vaporesso.com

- 1. **The formation of condensate:** The e-liquid in the cartridge adheres to the surface after

5

atomizing and is condensed into small formula droplets. The condensate is mainly composed of propylene glycol and glycerin, which will build up inside the cartridge or the drip tip after extended use.

Solution: Gently wipe them with a tissue.

2. **Cartridge does not atomize:** The cartridge is blocked by foreign objects due to improper storing.

Solution: Bump the cartridge drip tip on a flat table.

3. **Flavor / color change of the e-liquid:**

Incorrect use may result in dry burning or carbon deposition on the atomizer.

Solution: Ensure that the cartridge contains enough e-liquid when vaping. Refill and/or replace the cartridge as appropriate.
